Profile

Business lecturer in higher education since 2024: Lecturer in Business and Entrepreneurship at Global Banking School, Manchester (including Level 4 Project Management), and former module leader at Study Group (LJMU International Study Centre), where I taught Marketing and Business Strategy at Level 4 and International Business at Level 3 to 140 international students, most working in English as an additional language. PGCE with QTS; PGCHE with Distinction; Fellow of the Higher Education Academy. Part-time PhD candidate in Education at Liverpool John Moores University (in progress), researching a lecturer-fed, module-specific AI feedback agent for Level 4 international business students through practitioner action research. My teaching and scholarship centre on assessment, feedback and learning design after generative AI, and on helping first-year international students learn to read and use academic standards.

Higher education experience

Lecturer in Business and Entrepreneurship,
Global Banking School, Manchester — AUGUST 2026 – PRESENT

- Teach Level 4 Project Management, and Business and Entrepreneurship more widely, to diverse adult cohorts, using structured activities, discussion and problem-solving to develop analysis and evaluation.
- Provide formative guidance and assessment support, using Microsoft Teams and supplementary digital resources within programme assessment and quality requirements.

Associate Lecturer, School of Education,
Liverpool John Moores University — FROM 9 NOVEMBER 2026

- Level 6 dissertation marking and one-to-one student supervision.

Business Lecturer and Module Leader,
Study Group / LJMU International Study Centre, Liverpool — MAY 2024 – AUGUST 2026

- Led Marketing & Business Management (Level 4), Business Decisions & Strategy (Level 4) and International Business and Environment, coordinating planning, assessment and student guidance.
- Completely redesigned three 12-week modules in the VLE end to end (108 lessons with full decks; 216 formative tasks; schemes of work; materials and banks); wrote ~100 summatives (exams, essays, case studies) with mark schemes across three intakes including referrals; delivered online summatives with LJMU; designed formative activities, briefs and marking guidance across Levels 3–5.
- Taught 140 international students across all groups in International Business, Marketing, Strategy, Globalisation, Ethics, Trade and Business Management; supported business analysis, academic writing, assessment literacy and transition to UK higher education.
- Contributed to national Learning & Development and Quality committees and assessment revalidation. Curriculum and assessment improvements contributed to a 0% post-referral failure rate and a 60% cohort mean.
- Designed flipped classroom sessions with pre-class VLE material (e.g. podcasts); evaluated one on Hofstede's cultural dimensions (16 predominantly EAL students: Panopto, Vevox, scaffolded application, Canvas exit ticket). All respondents said the video connected closely (62.5% very, 37.5% quite); preparedness was mixed, so I redesigned the pre-work.

Previous employment

Secondary and Sixth-Form Teacher,
Tradewind Recruitment, Liverpool and Merseyside — JULY 2020 – MAY 2024

- Taught Business and IT, including Edexcel A-level Business; developed case-based tasks, differentiated resources and feedback to support analysis, evaluation and quantitative skills.

Qualifications and professional recognition

PhD in Education (part-time, in progress),
Liverpool John Moores University — 2026 – PRESENT
Thesis: *Developing and Evaluating a Lecturer-Fed, Module-Specific AI Agent for Personalised 24/7 Feedback: An Action Research Study with Level 4 International Business Students.*
Supervisors: Frances Tracey (lead), Peter Atherton. Programme approval ratified September 2026; expected completion 2028–29; ethical approval not yet applied for.

PGCHE, Distinction, Falmouth University — 2026

Fellow of the Higher Education Academy (FHEA), Advance HE — 2026

Certified Digital Marketing Professional, Distinction, Digital Marketing Institute — 2026

PGCE Business Studies & IT, with QTS, Liverpool Hope University — 2020

MSc Business and Project Management, Aberystwyth University — 2015

Research

Doctoral project. A retrieval-augmented generation (RAG) agent grounded in lecturer-curated module materials (syllabus, lecture notes, rubrics, criteria, exemplars), available 24/7 for content questions, assignment clarification, draft feedback and practice. It is bound never to complete assessed work or invent references. The study is designed as plan–act–observe–reflect cycles in the lecturer's own modules, using surveys, focus groups, anonymised usage logs and a reflexive journal. A working prototype has been built (v2, October 2026); it has not been used with students and further testing is under way. No student data have been collected; ethical approval will be in place before any student-facing activity.

Research interests. Generative AI and personalised feedback; assessment and learning design; inclusion and international and EAL learners; academic standards, evaluative judgement and feedback literacy; digital pedagogy; practitioner action research.

Outputs and dissemination

- Davies, D.P. A conceptual article on assessment criteria and feedback for international first-year students (in preparation).

Subject expertise

Business Management · Strategy · International Business · Entrepreneurship · Marketing · Globalisation · Business Ethics · Sustainability · Trade · Project Management

Digital practice and development

Canvas/VLE, Microsoft Teams, Padlet, Panopto, Vevox, digital quizzes, Microsoft 365; AI-supported learning-resource development; design and build of a RAG-based module agent. LJMU Faculty Research Degree induction and Research Ethics online training completed.
